## PRODUCT DESCRIPTION

**Designer:** Michele De Lucchi & Giancarlo Fassina

### Artemide Tolomeo Mega Wall Light

Artemide Tolomeo Mega Wall Light uses the Tolomeo articulated arm system in a wall-mounted format, with the traditional aluminium head replaced by a balanced diffuser. Designed by Michele De Lucchi and Giancarlo Fassina, it keeps the clean and minimalist lines of the collection, with an aluminium structure and a larger shade form.

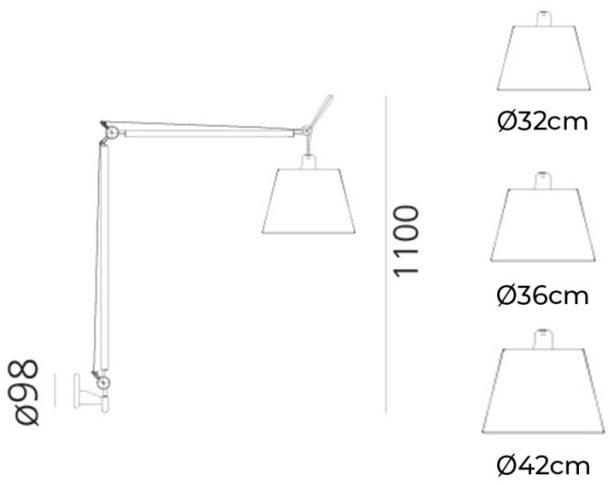

The Mega version is available with a diffuser in three sizes, casting a soft glow into its surroundings. The arm can be adjusted in height and tilt using the spring mechanism associated with Tolomeo, giving the wall light flexibility without changing the main character of the collection.

Artemide Tolomeo Mega Wall Light is available with an Aluminium body and Silk or Parchment shade, or with a Black body and Black fabric shade. Each shade option is available in 32cm, 36cm, or 42cm diffuser sizes. Best suited for lounges, bedrooms, reading areas, dining spaces, and hospitality interiors where a larger adjustable wall light is needed with a softer shade effect.

**Please note, the Artemide Tolomeo Mega Floor Lamp is also available with the option to mix-and-match Black or Aluminium bases and a choice of black, silk, or off-white parchment shades across all three sizes. Contact us for pricing and further information.**
