Astro Jura Twin Wall Light

The Astro Jura Twin Wall Light is a solid brass wall light designed to cast illumination both upwards and downwards. Its compact form creates a clean architectural lighting effect on the wall, while the brass finish gives it a warmer and more characterful appearance than a standard painted outdoor fitting.

Made from solid brass, Jura Twin will naturally develop a patina over time, adding to its aged appearance. If preferred, the finish can be restored by polishing. This changing surface quality makes the fitting well-suited to projects that favour a more traditional material presence rather than a fixed factory finish.

Rated IP44, Jura Twin is suitable for outdoor use and bathroom zones 2 and 3. It uses two GU10 lamps, sold separately, and is dimmable when paired with compatible dimmable bulbs. Please note that this fitting is not suitable for installation within five miles of the coast.

Best suited to entrances, patios, exterior walls, garden walls, period properties, and bathroom zone 2 or 3 wall lighting.

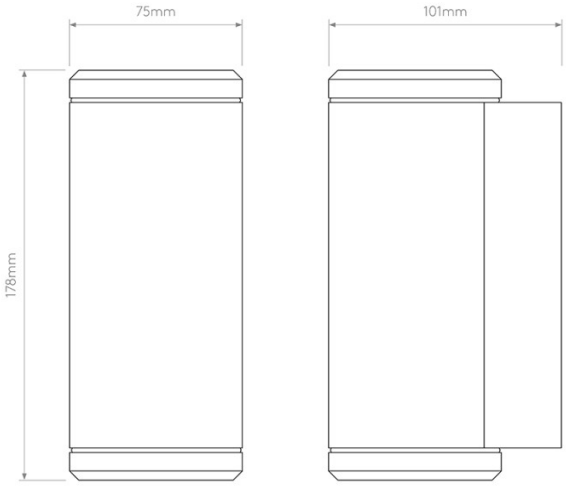

PRODUCT SPECIFICATION

Light Source: 2 x Max 6W GU10 LED (Excluded)

IP Code: 44

Dimming: Dimmable via mains phase dimming.

Dimensions: Height: 17.8cm
Width: 7.6cm
Depth: 10.1cm
