PRODUCT DESCRIPTION

Designer: Astro Design Team

Astro Ascoli Recessed Wall / Ceiling Light

The Astro Ascoli Recessed light is a discreet and modern spotlight that blends seamlessly into walls or ceilings. Designed with a slim, recessed profile, it sits neatly within plasterboard, creating a subtle architectural look. Available in finishes of matt black, bronze, textured white or matt nickel, it adapts effortlessly to a wide range of interiors.

Offering practical flexibility, the spotlight head tilts up to 90° and rotates 330°, ensuring targeted illumination exactly where it is needed. This makes it a versatile choice for reading lights beside the bed, accent lighting in hallways, or practical use in kitchens and living areas. Dimmable with GU10 lamps, the Ascoli Recessed allows adaptable control of brightness.

Made from durable mild steel, this recessed fitting combines refined style with robust engineering. Its clean, minimal aesthetic and versatile functionality make it a popular choice for contemporary residential and hospitality interiors.
