PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Mini Melt LED Pendant

Mini Melt, with its imperfect, organic form, is available in a range of finishes, including gold, copper, chrome, smoke, bronze and nickel metallics, alongside an opal shade with either silver or gold detailing. The Tom Dixon Mini Melt light is injection blow moulded and finished with vacuum metallisation, giving the metallic shades a mirrored effect when switched off. When illuminated, the pendant takes on the appearance of molten glass, creating the optical effect that defines the Melt collection.

The Nickel finish extends the Mini Melt's metallic palette with a cooler, softer-toned surface that sits naturally alongside the existing gold, copper, chrome, smoke and bronze options. Tom Dixon also offers the Opal finish for those who prefer a brighter, more diffused version of the Melt design. When switched off, the Opal shade has an opaque, pearl-like appearance. When switched on, it becomes a softly glowing orb, offering enhanced luminosity compared with the metallic finishes. Melt pendants are also ideal as grouped arrangements, suspended from a multi-canopy to create a display of melted orbs.

In celebration of the Melt's 10th anniversary, Tom Dixon released a bronze version of the Mini Melt Pendant. This finish is more muted than the earlier metallic colours, making it easy to place within a wide range of interior styles.

The Tom Dixon Mini Melt is supplied with a matching ceiling canopy and suspension kit. The Mini Melt in Copper is supplied with a copper suspension and canopy. The Mini Melt in Smoke, Chrome, Nickel and Opal/Silver is supplied with a chrome suspension and canopy. The Mini Melt in Gold, Opal/Gold and Bronze is supplied with a gold suspension and canopy.

Please Note: The integrated LED light engine of the Mini Melt Pendant is replaceable. This can only be sourced via Tom Dixon. Please contact us for more details and pricing.

PRODUCT SPECIFICATION

Light Source: 6W, 3000K, 800 Lumens

IP Code: 20

Dimming: Dimmable using leading edge and trailing edge.

Dimensions: Width: 28cm
Height: 27cm
Cable Length: 250cm
