PRODUCT DESCRIPTION

Designer: Svend Aage Holm-Sørensen

Warm Nordic Ambience Table Lamp

The Ambience Table Lamp was designed in 1954 by Danish designer Svend Aage Holm-Sørensen. Svend was an innovative designer whose style evolved greatly throughout his career. Despite the age of his designs, his pieces have remained so consistently popular that Warm Nordic have reintroduced them to their collection. The elegant profile of the Ambient Table Lamp and its playful asymmetrical shape make this classic design appear modern, blending seamlessly into contemporary interiors.

The Ambience Table Lamp is available in a wide variety of finishes to match a range of interiors and personal tastes. Each colourway is finished in Warm Nordic's exclusive silk-matt colour quality, ensuring a durable yet luxurious surface. Each lamp is made from lacquered steel, with an option of a brass stem for the warm white and black noir finish. This table lamp produces a warm, glare-free light, perfect for decorating surfaces throughout the home such as side tables, shelves, or office desks.
