PRODUCT DESCRIPTION

Designer: Svend Aage Holm-Sørensen

Warm Nordic Brass Top Table Lamp

The Brass Top Table Lamp is a classic design that has been reintroduced by Warm Nordic. This piece was originally designed by Danish designer Svend Aage Holm-Sørensen in the 1950s. As well as being a designer, Svend also had experience as an ornamental metal worker. This experience is often reflected in his work, which showcases metals by removing any unnecessary switches or dials. The Brass Top Table is an excellent example of this. The minimalistic profile gives the appearance that the shade is balancing delicately on its stand. This brass cap and brass hanging switch add an ornate touch and showcase Svend's attention to detail.

The Brass Top Table is available in a Warm White finish. Small, light holes line the bottom of the metal shade, adding an additional layer to the lighting effect. The conical shade produces a glare-free, downward directional light perfect for an office or bedside table. The Brass Top Table Lamp is a timeless, decorative addition to any contemporary interior.

PRODUCT SPECIFICATION

Light Source: 1 x Max 25W E14 (excluded)

IP Code: 20

Dimming: Integrated on/ off switch on the product.

Dimensions: Ø: 25cm
Depth: 31cm
Height: 41cm
