## Warm Nordic Lightsome Wall Light

A sophisticated light for your home, the Lightsome Wall Light has a large shade allowing the light to flow. A great companion for your bedside or living room. The tiny holes at the top are a signature of the designer, Svend Aage Holm-Sørensen, but also allow for some light to escape creating a delicate pattern of light in the shade.

This wall light cannot be hardwired into the wall but instead includes a cable and plug which needs to be plugged into a socket on the wall below. This is a classic feature of Scandinavian wall lamps which are rarely hardwired.

A matching floor lamp is also available- please select from the drop-down list above.

Designer: Svend Aage Holm-Sørensen
