PRODUCT DESCRIPTION

Designer: Svend Aage Holm-Sørensen

Warm Nordic Opal Arch Pendant

The Opal Arch Pendant was designed by Danish designer Svend Aage Holm-Sørensen in 1959. Holm-Sørensen was a pioneer for Danish lighting and his spent his career developing and evolving his style. He was a licensed ornamental metal worker, and the use of raw metals with decorative details is prominent in his work. The Opal Arch Pendant features an opal glass diffuser that is encapsulated by a colourful metal frame. This frame has grooves running across it for a display that looks striking whether illuminated or not. The three-layered opal glass diffuses light from the source, creating a warm, glare-free light.

The Opal Arch Pendant can be combined with [The Opal Shade Pendant](#) and [The Opal Lamella Pendant](#) to create a striking and consistent display throughout your home. The choice of multiple colourways adds further versatility to the design, giving you a choice of colours to match a range of interior decors. Each pendant is finished with Warm Nordic's exclusive silk-matt colour quality, for a finish that not only looks luxurious but also ensures durability.

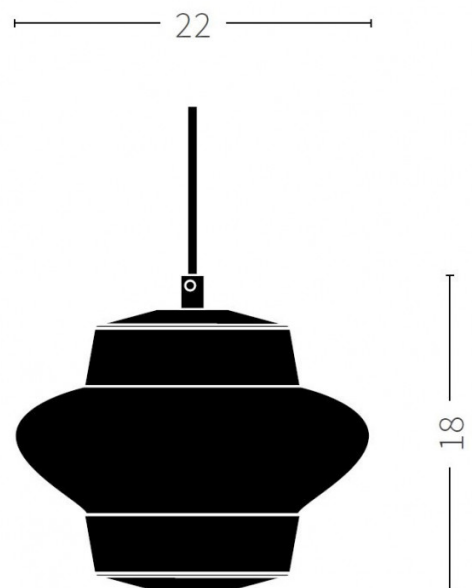

PRODUCT SPECIFICATION

Light Source: 1 x Max 25W E27 (excluded)

IP Code: 20

Dimming: Non-Dimmable.

Dimensions: Width: 22cm
Height: 18cm
Cable Length: 300cm
