PRODUCT DESCRIPTION

Designer: Svend Aage Holm-Sørensen

Warm Nordic Opal Lamella Pendant

The Opal Lamella Pendant was designed by Danish designer, Svend Aage Holm-Sørensen in 1959. Holm-Sørensen gained experience as an ornamental metal worker, and his skills working with metal are apparent in his work. The opal glass diffuser is surrounded by a powder-brushed steel crown which holds a solid brass detail at the top. The sculptural metal shade not only looks impressive, but also casts a unique lighting into the room. The glare-free warm glow from The Opal Lamella Pendant adds a welcoming ambience to any interior.

The wide range of finishes available for this pendant offers versatility in design and will fit seamlessly into a range of decors and personal styles. They can be installed individually or as multiples, in a colourway that blends with the interior, or in a mix of colours for a more vibrant, playful aesthetic. Each pendant is finished with Warm Nordic's exclusive silk-matt colour quality which, along with the the brass detailing on the shade, adds a luxurious element to the room.

PRODUCT SPECIFICATION

Light Source:	1 x Max 25W E27 (excluded)
IP Code:	20
Dimming:	Non-Dimmable.
Dimensions:	Width: 25cm Height: 23cm Cable Length: 300cm
