PRODUCT DESCRIPTION

Designer: Thomas Bernstrand

Zero Bob LED Floor Lamp

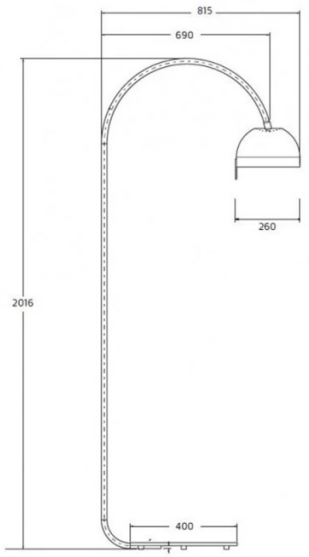

The Zero Bob LED Floor Lamp is a contemporary lighting piece developed in collaboration with Blå Station. Originally designed to integrate seamlessly with the BOB sofa system, this freestanding version allows for versatile placement in living spaces, offices, and hospitality settings. The dome-shaped diffuser ensures soft, indirect illumination, minimising glare while creating a warm, inviting atmosphere.

Designed by Thomas Bernstrand and Stefan Borselius, the Bob Floor Lamp is crafted from painted aluminium with a matt acrylic diffuser, available in black or white as standard. It features a 10W LED module, delivering 838 lumens of 3000K warm white light with a CRI of 90 for excellent colour accuracy. The lamp includes a 250cm cable with an inline switch and plug, ensuring easy placement and operation.

The Bob floor lamp comes in black or white as standard but can be available in other colours on request. Please contact us for further information on pricing.
