Bob by Zero

The Bob was originally designed to fit under the furniture by Blå Station. Since then, Zero has collaborated with the furniture brand to make available the free standing Bob floor lamp, allowing you to use the lamp on its own. The dome like shade does not allow for any glare, yet provides a warm light for your home whether you are reading a book or just relaxing in your living room. The Bob floor lamp comes in black or white as standard but can be available in other colours on request. **Please** contact us for further information on pricing.
