PRODUCT DESCRIPTION

Designer: Davide Groppi

Davide Groppi Simbiosi LED Chandelier

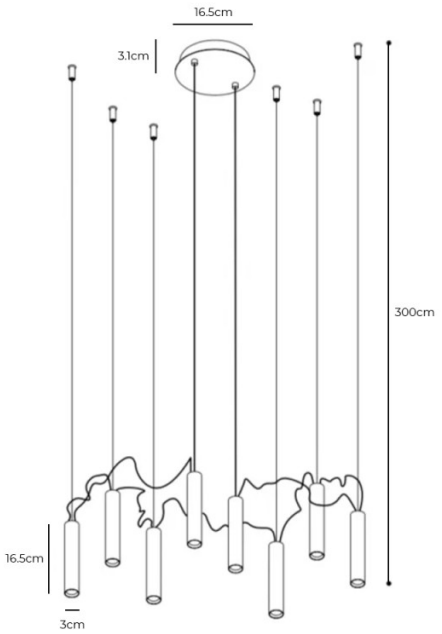

Davide Groppi Simbiosi LED Chandelier was designed in 2015 to allow you to assemble it according to your personal preference. The name choice Simbiosi, meaning to live together harmoniously, describes the thin and subtle wires between the pendants that send a weak electric signal to the diodes. A conjuring trick that gives you the possibility of connecting the diodes in a sequence or at random, creating countless arrangements. The thin wires that connect the light sources and bring them alive are the main components of this project.

Simbiosi LED Chandelier shades are available in two colour choices: black and white. The black shades have subtle grey thin wires, while the white shade has a bold red colour. Each shade is suspended by barely visible cables that hang 300cm from the ceiling. This chandelier has a minimalistic element, which opens up the option to be featured in both commercial and residential contemporary environments.

Please note: the shades are available in black and white colours only.

PRODUCT SPECIFICATION

Light Source:	12W, 3000K, 960 Lumens
IP Code:	20
Dimming:	Push to make/switch dimming, dimmable using push-to-make switches. Please consult your electrician; additional wiring may be required on-site.
Dimensions:	Cylinder height: 16.5cm Cylinder width: 3cm Drop height: 300cm
