### PRODUCT DESCRIPTION

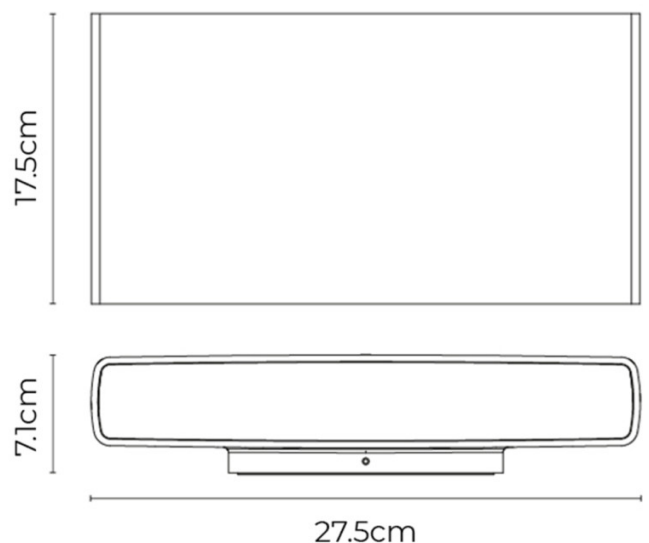

**Designer:** Piero Lissoni

### Flos Climber 275 Down LED Wall Light

The Flos Climber 275 Down LED Wall Light is perfect for any garden setting or just about anywhere around your home. It offers a minimalistic aesthetic, subtly blending in with your exterior and ensuring the illumination is the focal point. The direct downlight of Climber, protected by a shutter so as not to allow for any glare, is great if you have something to highlight or draw attention to, but works equally as well as general accent lighting if the 72° beam angle is chosen.

The [Climber Collection](#) gives you the choice between different colours, beam angles and colour temperatures to suit individual needs. Available in six colours: white, grey, black, forest green, deep brown and anthracite, the Climber 275 Down Wall Lamp also provides either a 16° or 72° beam angle. Also choose between a warmest white (2700K), warm white (3000K) or cool white (4000K) colour temperature.
