Designer: Philippe Starck & Eugeni Quitllet

Flos La Plus Belle LED Mirror

This product is an Offline Only exclusive, available only to buy from selected authorised Flos dealers. Please contact us for pricing or to arrange an appointment to discuss this product in our showroom.

Flos presents the La Plus Belle mirror with an incorporated LED strip, a design by Philippe Starck. La Plus Belle offers the lighting you need to get ready, put your make-up on or style your hair. The LED strip emits a total of 54W, a powerful light that doesn't give any glare, but beautifully embraces the mirror for a standout piece of furniture. The light output from the Flos La Plus Belle LED Mirror is pleasant and soft, warm white, as well as manageable by the dimmer with an integrated sensor.

The frame is crafted from aluminium and comes in a choice of three finishes: polished bronze, brushed gold or polished aluminium. The mirror can be wall mounted, hung the same way you would hang a painting, but with a dual magnet fixing device that goes on the wall. A beautiful addition to bathrooms, walk-in wardrobes, bedrooms and dressing rooms.
