PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Melt LED Round Pendant System

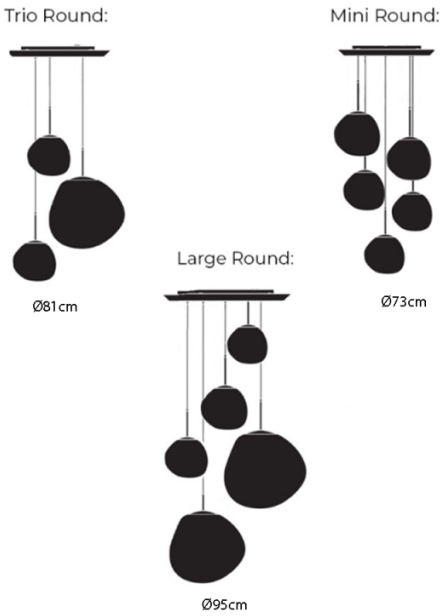

Tom Dixon's best-selling LED Melt Pendants are available in a variety of cluster combinations which they call 'pendant systems', suspended from one ceiling canopy, meaning only one electrical point is required to suspend multiple lights together. The maximum drop of a cluster can be adjusted by shortening the cable length of each pendant. Melt Cluster Pendants are ideal for making a statement above a stairway or entrance hall.

There are three cluster combinations from which to choose: the Trio Round (1 regular and 2 Mini Melts), Mini Round (5 Mini Melts) or Large Round (2 regular and 3 Mini Melts). There are also 4 colours to choose from - chrome, copper, gold or smoke. All the Melts in your Cluster Pendant can be the same colour or a mix of your choice. The ceiling canopy for all clusters is white.

Each Tom Dixon Melt is created using injection blow moulding and then finished through a process of vacuum metallisation, which gives the Melt its opaque mirror-like effect when unlit. When lit, the Melt transforms to take on a luminous transparency evocative of molten glass.

PRODUCT SPECIFICATION

Light Source:	6W, 3000K, 800 Lumens
IP Code:	20
Dimming:	Dimmable using leading edge and trailing edge (Triac).
Dimensions:	**Melt Trio Round**: Cluster: Ø81cm Canopy: Ø58cm Drop Height: 141cm **Melt Mini Round**: Cluster: Ø73cm Canopy: Ø58cm Drop Height: 140cm **Melt Large Round**: Cluster: Ø95cm Canopy: Ø58cm Drop Height: 250cm
