PRODUCT DESCRIPTION

Designer: Kranen/Gille

The Party Suspension by Moooi

After the success of [The Party wall lights](#), the design by Kranen/Gille is now available as a suspension light. All characters are brought together for a family reunion on this double sided pendant light. The designers had initially created The Party wall lights, due to their fascinations by family dynamics. A number of faces that will brighten up any space with their playful and mischievous personalities. Each face has its own story and background, a personality that can't be missed from a party. You have the black- sheep, the wannabe royalty, the opportunist, the patriot and the evil mastermind.

In order for you to better understand the characters, we will introduce you to them. First we have Bert, a sombre member of the Party, filled with greed and jealousy. Then, a prestigious member, The Mayor, who thinks highly of himself and sees the world only through his monocle. A patriotic soul, Glenn, a man with a mission; to find clarity through ideology and order. Then, the only lady in the Party, Coco, the archetypal woman, mother and lover. And final, the evil genius who went down the wrong path since his youth, and the only face with no identifiable traits.

The Party suspension becomes an intriguing presence in any interior, whether residential or commercial. With an integrated LED source, the suspension is energy efficient while its features a dimming option so that you can adjust the light intensity depending on the mood and use. The light has a basic tactile feel to it, due to its ceramic finish. The collection also includes the wall lights, where you can select individual faces and characters for your home or business.

PRODUCT SPECIFICATION
