PRODUCT DESCRIPTION

Designer: Ferruccio Laviani

Kartell Small FL/Y Pendant

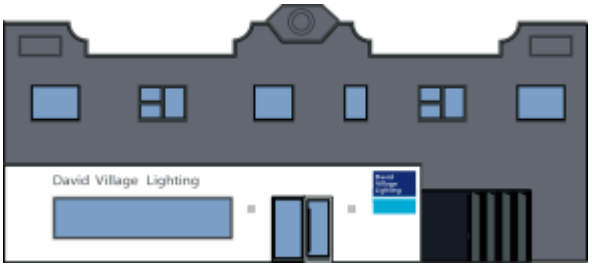

This is the smallest FL/Y in the collection designed by Ferruccio Laviani for Kartell, with a diameter of 38cm. Indicative of the Kartell mantra, expressing the spirit of the brand brilliantly with its colour variations and playful style. Described as a 'bubble of light' and available in a range of colourful translucent tones that work beautifully in clusters, this simple, dome-shaped shade embodies the off-the-wall style and forward-thinking of modern Italian design.

The shape of the shade is not perfectly hemispherical, with the cut-off below the central line, done purposefully by Kartell to collect the maximum amount of light. The Kartell Small FL/Y Pendant provides iridescent illumination, which works brilliantly over a dining table or kitchen counter, either alone or in clusters. Use this one size independently or combine it with other sizes in the **FL/Y range**.
