PRODUCT DESCRIPTION

Designer: Verner Panton

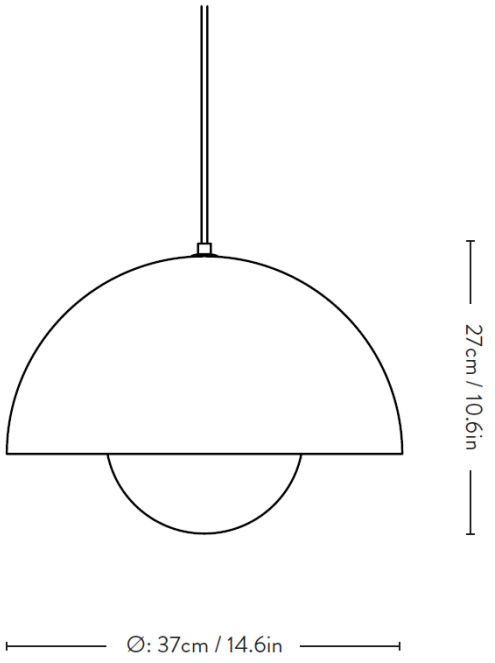

&Tradition Flowerpot VP7 Pendant

The Flowerpot VP7 Pendant is part of the iconic **Flowerpot Collection**, created by Verner Panton in 1968. The collection represents the bold and vibrant expression of the Flower Power movement, characterised by its bright colours and playful forms. The VP7 Pendant beautifully showcases this expression. Available in a choice of 19 colourways, the pendant embodies the essence of playful versatility.

The Flowerpot VP7 Pendant features a deceptively simplistic-looking form comprised of two hemispheres. The lower hemisphere is exactly half the size of the upper, and, when illuminated, diffuses light into a soft glow that creates a welcoming ambience. The metal shade guides light into a downward-directed glow, perfect for illuminating dining tables, kitchen islands, or coffee tables. Display individually or in clusters with other pendants from the Flowerpot Collection to create a colourful composition that will leave a lasting impression.

PRODUCT SPECIFICATION
