LE KLINT

Pliverre Floor Lamp by Le Klint

Christian Troels reinterprets the original Le Klint paper/plastic foil shade to create the Pliverre floor lamp, made with a hand blown opal glass shade. The lampshade protects the light source allowing for a glare free and warm light to brighten the room.

The opal glass is a lavish choice, making this floor lamp true to the Le Klint style with added extravagance. Small brass details make the Pliverre floor light elegant, while the arm and shade are adjustable allowing for a directional light that is versatile. The base and arms of the floor lamp are made of matt black steel, giving an industrial feel and have exposed functional details, contrasting to the softness of the opal glass shade. Perfect for lounging areas as an ambience, reading or task light, the Pliverre floor lamp can also be matched with others from the [Le Klint Pliverre collection](#), creating a chic and refined lighting scheme throughout the room.

Designer: Christian Troels

Dimming: In line on/off switch included on cable

Dimensions:

85-107cm width

128-158cm height
