PRODUCT DESCRIPTION

Designer: Ferm Living

Ferm Living Braided Disc Pendant Light

The Ferm Living Braided Disc Pendant features a hand-woven rattan shade. Rattan is a type of climbing reed often used in furniture design due to its versatile and durable properties. Each shade is expertly hand-braided over an iron structure for added sturdiness. As they are handmade, slight variations may occur from piece to piece. The organic curves complement the organic material, adding a natural essence to any room.

The Braided Disc Pendant encloses the light source within. A subtle glow surrounds the shade as light escapes through the pendant's weaves. The open bottom creates a downward directional light that is perfect for illuminating surfaces such as a dining room table or a desk in a study. The pendant can be installed in multiples, lining a long table or running the length of a hallway. Install the Disc Pendant alongside other pendants from the **Braided Collection** to create a grander display in large rooms or commercial spaces.

The Braided Disc pendant lamp is equipped with a 200cm fabric cable suspension kit, but is also available to purchase with a 400cm suspension kit or without a kit. Please contact us for more information and pricing.

PRODUCT SPECIFICATION

Light Source:	1 x Max 12W E27 LED (Excluded)
IP Code:	20
Dimming:	Dimmable via mains phase dimming.
Dimensions:	Shade: Ø49.5cm Height: 20cm Cable Length: 200cm
