New Works Material Table Lamp

The Material pendant light has been New Works' most popular product since the company began, and so it was inevitable that the Material collection would be expanded. The strikingly minimalist range is known for using natural materials to bring natural splendour into every room which it adorns.

The chosen shade is mounted on a sleek frame, and pivots to direct the light emission where required, adding extra functionality to the table light. Each light comes equipped with a 3 stage dimmer on the lamp base. Choose from the earthy and natural cork or oak finishes or opt for the more luxurious marble finishes – there is sure to be a shade to suit your style.
