PRODUCT DESCRIPTION

Designer: Pierre Charpin

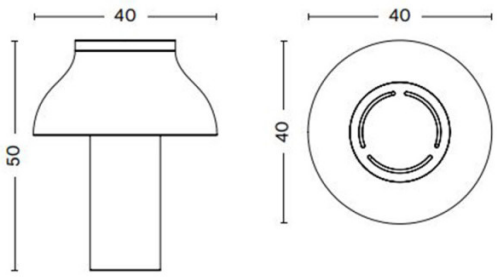

HAY PC Table Lamp

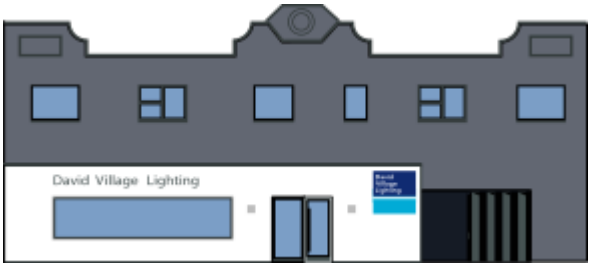

The HAY PC Table Lamp was designed by Pierre Charpin with the intention of creating a lamp that can easily span the border between home, office and public space. Charpin is known for designing refined and precisely engineered multifunctional lamps that are user-friendly. The simplicity of the design of these classic table lamps comes from Charpin's desire to create a sensual silhouette that makes an object 'readable as a whole'.

The HAY PC Table Lamp keeps the technical components out of view as it has an uninterrupted design that conceals the light source within an aluminium shade and translucent polycarbonate diffuser. By providing a soft directional downward light, this lamp would be ideal for any bedside, desk or study area. This desk lamp is available in a Soft Black finish, adding a minimalist touch to any interior.
