## PC Pendant lights by HAY

A refined and minimal design, Pierre Charpin's latest addition to the PC collection is a set of three industrial style pendant lights. The PC pendants are perfect for installing as part of a cluster or individually for a feature display and functional illumination. The refined and modern aesthetic of the PC pendants are ideal for contemporary homes and commercial spaces, working perfectly as decorative and efficient lighting.

The shade of the pendants feature a polycarbonate diffuser which sits inside to cover the light source, this gives an even softly diffused downward light.
