PRODUCT DESCRIPTION

Designer: Inga Sempé

HAY Matin LED Table Lamp

The HAY Matin LED Table Lamp was designed by Inga Sempé after she was inspired by the beautiful ribbon shops in Paris. From the delicate pleats to the carefully selected colour palate, Inga Sempé aims to reflect the beauty of Paris through her design. This desk lamp combines quality and function with it's lightness of touch and tactile nature, this lamp also uses an integrated LED light source that makes it have a contemporary functionality. The polished brass finish paired with the delicate pleats creates an elegant and artistic design that adds a sophistication to any space. This lamp is available in a variety of colours which are Oxide Red, Bright Red, Yellow, White, Lavender and green.

This cleverly constructed table lamp allows you to customise the light output with ease. The in line dimmer switch on the cable makes adjusting the light simple and easily accessible. Another customisable aspect of this vibrant desk lamp is the option to swap out the shade with different colours shades, offering the flexibility of replacing with new colours to refresh the lamp's appearance. This is encouraged by the designer as she prides herself on her colour palate and her desire to bring a touch of Paris' vibrancy to any space.
