PRODUCT DESCRIPTION

Designer: Normal Studio

Sammode Studio Belleville LED Suspension / Wall Light

The Sammode Studio Belleville LED Suspension combines Sammode's technical expertise with Normal Studio's artistic flair. Normal Studio created the perforated stainless-steel metal louvre, which houses Sammode's familiar signature tube. This combination of materials creates a striking contrast of industrial design against delicate lighting.

With an IP rating of 68, the Belleville Suspension is suitable for both indoor and outdoor use. The durable design can withstand bad weather conditions and UV rays, combining decorative design with robustness. When illuminated, Belleville produces diffused light in all directions. This glare-free lighting flatters any space with a comfortable, well-lit glow and pleasant atmosphere. Install vertically or horizontally to suit a range of spaces from dining rooms to patio areas.

Please Note: The Belleville Suspension can be supplied with Casambi dimming. Please contact us for more information and pricing.
