PRODUCT DESCRIPTION

Designer: Normal Studio

Sammode Studio Rivoli LED Suspension / Wall Light

The Sammode Studio Rivoli LED Suspension/Wall Light was specially designed by Normal Studio to illuminate the contemporary art galleries of the Musée des Arts Décoratifs. The stylish luminaire blends Sammode's signature tube with Normal Studio's contemporary style. A perforated black louvre decorated with dynamic waves gives the Rivoli an industrial appearance that suits modern spaces.

The Rivoli Suspension is a versatile lighting solution that offers a range of possibilities to enhance your space. It can be installed as a suspension or directly onto a ceiling or wall, and with its IP68 rating, it is suitable for indoor and outdoor environments. It adds an architectural presence when on or off and, when illuminated, its 360° lighting creates an even glow of glare-free, atmospheric lighting. As with all of Sammode Studio luminaires, the Rivoli is manufactured, assembled and packaged at their Châtillon-sur-Saône production plant in the Vosges region of France.

Please Note: The Rivoli Suspension can be supplied with Casambi dimming. Please contact us for more information and pricing.
