PRODUCT DESCRIPTION

Designer: Yann Kersalé

Sammode Studio Nilak Portable LED Wall Light

Inspired by the glacial landscapes of Greenland and Baffin Island, the Sammode Studio Nilak Portable Light translates the beauty of ice into a versatile lighting solution. Acclaimed artist Yann Kersalé combines Sammode Studio's technical know-how with sculptural design. Sammode's signature tube houses two translucent films, one with a prismatic effect and the other with a mirror effect, creating a striking visual that echoes the aesthetic of ice.

The Nilak Portable Light is designed to be moved as needed, with an IP68 rating that allows it to be used indoors and outdoors in all seasons. Its stainless-steel brackets fix it to the wall as required. An integrated dimmer allows users to set the perfect light level for any setting. Whether used as a decorative accent or for ambient lighting, the Nilak Portable Light creates a warm, inviting atmosphere while complementing a variety of interior styles.
