PRODUCT DESCRIPTION

Sammode Studio Nilak Portable LED Wall Light

The Nilak by Sammode Studios is part of the LÖ collection in collaboration with Yann Kersalé which was inspired by Polar Regions, like the Arctic Circle. When lit, the Nilak portable wall luminaire allows you to set the perfect level of light for a warm evening or to light your dining room, thanks to the in built dimmer. When switched off, the Nilak melts into its surroundings, acting like a stainless steel mirrored art form.

Sammode Studio have designed the Nilak so it can be carried indoors or taken outside to suit the seasons. It has stainless steel wall brackets to affix it, meaning that it has multifunctional and multiuse properties. Nilak is suitable for wet and exterior environments and the LED light source casts a warm inviting glow onto its surroundings.

This luminarie comes complete with connector and light source.
