Vibia Alpha LED Wall Light

The Vibia Alpha LED Wall Light is a discreet lighting solution for both residential and commercial spaces, this wall light features clean lines and a minimalist silhouette. Vibia Alpha is a perfect solution for lighting and drawing attention to photos and artwork on your walls. Fitted with an LED strip that emits a warm colour light, this light beam has no infrared or UV so when used it can ensure that any colouration is not distorted or destroyed in the item you are illuminating.

This LED Wall Light is an excellent choice for when you want to draw attention to a certain detail in a room, without drawing any attention away from the feature. It also makes an excellent reading light above a bedside table and is a beautifully modern choice for interiors.
