PRODUCT DESCRIPTION

Designer: Yann Kersalé

Sammode Studio Qinu LED Suspension / Wall Light

Designed by Yann Kersalé, the Qinu LED Suspension/Wall Light is inspired by glacial landscapes the designer once explored. Sammode's signature tube houses two translucent films, one with a prism effect and the other with a mirror effect. When switched off, the Qinu reflects its surroundings. When illuminated, light is diffused through the prism-effect film, creating a sparkling appearance that echoes frosted ice.

The Qinu is a versatile luminaire that can be installed as a suspension, ceiling light, or wall light. Its 360° illumination creates an even, glare-free glow of light that fills the surrounding space in a warm and welcoming atmosphere. Its IP68 rating and UV-resistant material make the Qinu suitable for use in both indoor and outdoor settings. Install in a dining room, bathroom, bedroom, or patio for an eye-catching lighting solution that adds a polar atmosphere and a touch of poetry to its surroundings.

PRODUCT SPECIFICATION

Light Source: 69W, 2700K, 3200 Lumens

IP Code: 68

Dimming: Non-Dimmable.

Dimensions: Ø13.3cm
Length: 122cm
Height: 15.8cm
