Sammode Studio Qinu Wall and Suspension Light

Part of the LÖ collection from Sammode in collaboration with Yann Kersalé, the Qinu wall and suspension light brings a multifaceted, 360° brilliant luminosity to spaces. The Qinu looks completely different when lit because only then is the full transparency of the product revealed, bringing a kaleidoscopic multitude of glittering prisms to life. When not in use, the mirror film reflects its surrounding environment and brings life to living spaces, becoming a piece of decorative art in itself.

The Qinu comes complete with all necessary components including both the suspension and wall hanging kits. This light also has an IP rating suitable for both outdoor and indoor use, including wet environments such as a bathroom.

Designer: Yann Kersalé

IP Code: 68

Dimensions:

Ø13.3cm

122cm length

15.8cm height
