PRODUCT DESCRIPTION

Designer: Arihiro Miyake

Nemo Lighting In The Wind Horizontal Pendant

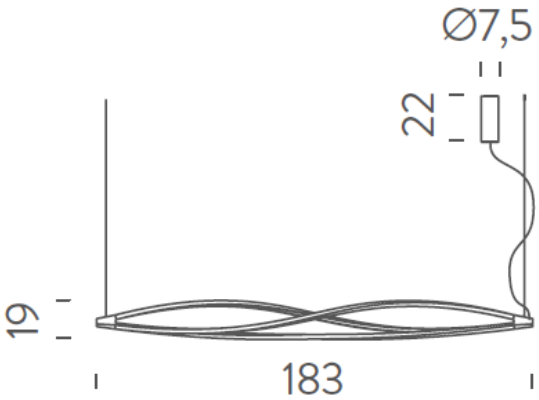

Designed by Arihiro Miyake, the In The Wind Horizontal Pendant is an exploration of modern LED technology. The pendant's twisted frame is crafted from extruded aluminium, which houses an integrated linear LED light source. With an off-axis twist, the In The Wind casts a 360 ° spread of light, creating a uniform glow that is both practical and functional.

The In The Wind Horizontal Pendant is available in four finishes: white, black, titan grey, and gold. These sophisticated finishes complement the pendant's decorative aesthetic, adding a touch of elegance to any interior. Display above a dining table, kitchen island, or in an office for a captivating addition to the room that blends form and function. Pair with other pieces from the In **The Wind Collection** for a cohesive theme that doesn't overwhelm its surroundings.

The In The Wind Pendant is also available with TRIAC, 1-10v, or Casambi dimming. Please contact us for more information and pricing.

PRODUCT SPECIFICATION

Light Source:	58W, 2700K, 2570 Lumens or 58W, 3000K, 2850 Lumens
