PRODUCT DESCRIPTION

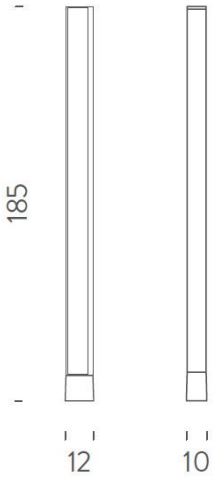

Designer: Roberto Paoli

Nemo Lighting TRU Floor Lamp

Part of the True collection, the Tru Floor Lamp was designed by Roberto Paoli. The floor light is made of two panels that hide inside them the LED light source, the Tru emits an indirect light. The light is double dimmable via Push on board, two separate buttons can be used to switch on/off or dim the linear light and the uplight. That way you can control separately the two different light sources and adjust the light in a way that suits your mood.
Tru is minimalist floor lamp, whose ambience brings a warmth into the space and creates various geometries and shadows. Ideal for any settings, both private and professional. The floor light is available in white, black, painted gold or titan grey and with a choice between 2700K or 3000K colour temperature.
