### PRODUCT DESCRIPTION

**Designer:** Benedetta Tagliabue

### Bover Domita S/20 pendant lights

The Bover Domita S/20 Pendant is an evolution of the iconic Dome range designed by Joanna Bover in 2015. 'Domita' is a smaller version of the original pendant lights, ensuring the beautiful design is available for smaller spaces and residential homes.

Each S/20 Pendant is handmade from natural materials and, thanks to the wooden diffuser, the light emitted is warm and inviting. This pendant is fantastic lighting solution for rooms that require a calm ambience. The neutral colour pallet and understated size of the Domita Pendant can make for an eye-catching installation in your space, displayed as part of a cluster or hung individually. The design is a perfect addition to social areas such as living rooms or dining rooms where Domita can create the most impact. It also makes a beautiful bedside lamp, due to it's size and the glare free output of light.

The S/20 Pendant is available as either a singular light source, a cluster of 3, cluster of 4 or cluster of 7. And it comes complete with a standard central ceiling canopy, cable lengths can be adjusted upon installation to suit the requirements of the room.
