Marset Jaima LED Outdoor Pendant Light

Marset Jaima LED Outdoor Pendant Light is an IP65 pendant by Joan Gaspar, designed around a Textilene shade with a white interior. The collection takes its name from the Bedouin tents of North Africa, with the fabric shade forming the main body of the light. Its soft, open shape gives the pendant a more relaxed outdoor character than a rigid metal shade.

Jaima can be used as a single pendant or repeated where several lights are needed over a larger outdoor table or seating area. The 43 size works well in smaller covered areas, while the 54 and 71 sizes give more presence over dining tables, terraces, and hospitality spaces. The white interior helps direct light downwards, while the Textilene shade filters the light through the outer fabric.

The integrated LED gives warm 2700K light, and the fitting is IP65 rated for outdoor use. Jaima is available in 43, 54, and 71 sizes, with Blue, Beige, and Grey shade finishes. Most suited to covered patios, terraces, pergolas, outdoor dining tables, garden seating areas, restaurants, hotels, and exterior spaces where a fabric pendant can provide warm downward light.

Please Note: 3000K versions are available on request. A hook accessory is also available to facilitate hanging Jaima on guide wires. Please contact us for more information and pricing.

PRODUCT SPECIFICATION

Light Source: **Jaima 43:** 15W, 2700K, 528 Lumens
Jaima 54: 15W, 2700K, 513 Lumens
