Astro Ascoli Swing Wall Light

The Astro Ascoli Swing wall light combines sleek modern design with practical adjustability, making it an ideal reading or task light. Part of the well-regarded Ascoli collection, this wall-mounted fixture features a pivoting arm and tilting spotlight head for maximum flexibility. Its integrated switch at the base provides simple, convenient control.

The swing arm rotates 180° while the head tilts up to 90°, ensuring precise illumination where it is most needed. Designed for bedside use, offices or living spaces, the Ascoli Swing provides a focused beam without unnecessary glare. Available in finishes of matt black, bronze, textured white or matt nickel, it complements a wide variety of contemporary interiors.

Built from durable mild steel, the Ascoli Swing is engineered to last, combining practical function with subtle style. Its clean proportions and versatile movement make it a smart, space-efficient addition to homes, hotels or apartments seeking modern task lighting.
