PRODUCT DESCRIPTION

Designer: Astro Design Team

Astro Lynx LED Ceiling Spotlight

The Astro Lynx LED Ceiling Spotlight is a surface-mounted ceiling light with an integrated LED source and a compact aluminium body. Its adjustable construction allows the head to tilt by up to 90° and rotate by up to 350°, making it useful where a fixed ceiling light would not provide enough directional control.

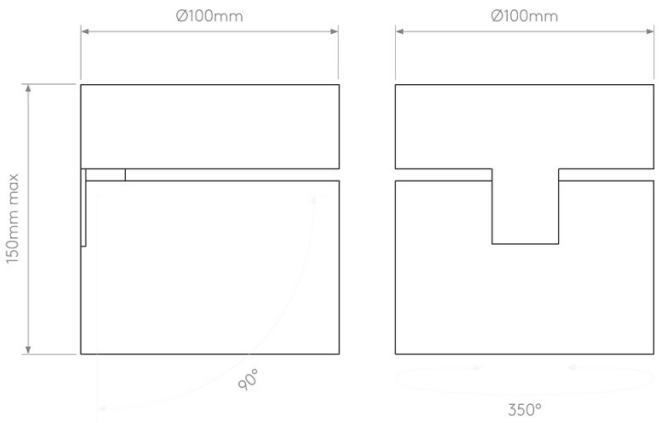

Available in Matt Black and Matt White, Lynx can either create contrast or sit more quietly against the ceiling. The integrated 3000K LED output provides warm light for interior use, while leading-edge dimming allows the lighting level to be adjusted with a compatible dimming setup.

Lynx is wired in, Class I, and supplied with no separate driver required. Output differs slightly by finish, with Matt Black listed at 741 lumens and Matt White listed at 810 lumens, both with CRI 80 and a 40,000-hour lifetime. It is suitable for mounting on flammable surfaces.

Best suited to pitched ceilings, hallways, kitchens, circulation spaces, display areas, shelving, and directional interior lighting.

PRODUCT SPECIFICATION

Light Source:	**Matt Black:** 12.1W, 3000K, 741 Lumens **Matt White:** 12.1W, 3000K, 810 Lumens
IP Code:	20
Dimming:	Dimmable via leading edge dimming.
Dimensions:	Fixture: Ø10cm Height: 10.5cm
