PRODUCT DESCRIPTION

Designer: Astro Design Team

Astro Lynx LED Ceiling Spotlight

Astro Lynx LED Ceiling Spotlight incorporates a 12.1W AC LED Module, a 3000K colour temperature and leading edge dimming, with a ceiling mounted body that can tilt to 90° and rotate to 350°. The aluminium construction is offered in Matt Black and Matt White, and the fitting is suitable for mounting on flammable materials.

Direction adjustability is the key part of the specification here. It allows the beam to be aimed with more precision than a fixed ceiling fitting, which makes Lynx useful where a surface mounted spotlight is preferred and the light needs to be shifted across walls, shelving or circulation areas.

Astro Lynx LED Ceiling Spotlight is for interior use and supplied as a wired fitting with no separate driver required. Matt Black is listed at 741 lumens with a 43.1° beam angle, while Matt White is listed at 810 lumens with a 43.7° beam angle.

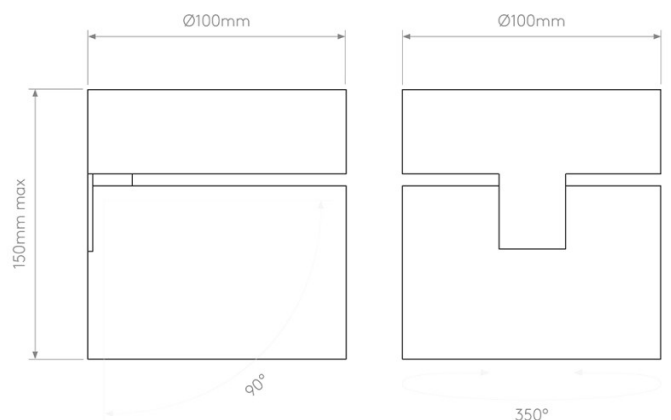

PRODUCT SPECIFICATION

Light Source: **Matt Black:** 12.1W, 3000K, 741 Lumens
Matt White: 12.1W, 3000K, 810 Lumens

IP Code: 20

Dimming: Dimmable via leading edge dimming.

Dimensions: Fixture: Ø10cm
Height: 10.5cm
