Astro Shadow 300 Wall Light

Astro Shadow 300 Wall Light is a contemporary interior wall light with a multifaceted plaster body, white plaster finish, and vertical wall-mount installation.

The Shadow 300 emits light upwards and downwards, with the faceted exterior creating different shadows when the light is switched on. Its plaster finish can be painted to match an interior scheme, allowing the fitting to sit closely with the surrounding wall surface while keeping its sculptural form visible.

The Shadow 300 is wired in, unswitched, and dimmable depending on the lamps selected, with Class I earthed construction and no separate driver required. For preparation and finishing guidance, follow Astro's [painting guide](#) before decorating the fitting. Most suited to hallways, living areas, bedrooms, stairways, and painted interior wall schemes.

PRODUCT SPECIFICATION

Light Source: 2 x Max 6W GU10 LED (Excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Height: 30cm
Width: 9.4cm
