PRODUCT DESCRIPTION

Designer: Michele De Lucchi & Giancarlo Fassina

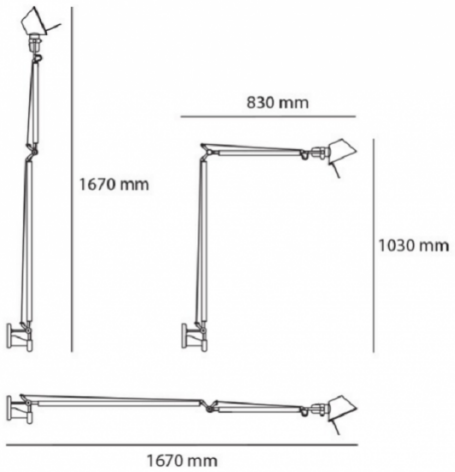

Artemide Tolomeo Braccio LED Wall Light

The Artemide Tolomeo Braccio LED Wall Light is an extension of the **Tolomeo Collection**. Designed by Michelle de Lucchi and Giancarlo Fassina, the Tolomeo was originally launched in 1987 and soon became an icon of Italian lighting. This wall-mounted version maintains Tolomeo's distinctive articulated arm system, which allows the lamp to be easily adjusted for flexibility in use. Its sleek, minimalist form suits residential and commercial settings alike.

The Tolomeo Braccio LED Wall Light utilises LED technology to produce quality, energy-efficient lighting. The aluminium reflector ensures an even distribution of light for functional and comfortable illumination. The adjustable frame allows users to position the lamp to create direct task lighting or an indirect, glare-free glow. Display beside a bed, armchair, or desk for a functional reading light that can be easily transformed into ambient light as required.

PRODUCT SPECIFICATION

Light Source:	10W, 2700K, 737 Lumens or 10W, 3000K, 761 Lumens
IP Code:	20
