Bocci 28t Table / Wall Light

Bocci 28t Table Lamp is a beautifully crafted sphere of glass which sits upon a brushed brass base. The light is operated by a circular brass dial situated on the lamp's semi-rigid cable, while the brass dial is slid open and closed to function as an on/off and dimmer switch. The 28t table lamp doubles up as both a table light and wall light. A small notch in the back of the brass base allows for this table light to be wall mounted. The brass circular dial switch can also be wall mounted. The semi-rigid cable then becomes a feature as you can sculpt it into your desired shape against the wall.

The glass in the Bocci 28 range is produced using a complex glass blowing technique whereby air pressure is intermittently introduced into and then removed from a glass matrix which is intermittently heated and then rapidly cooled. The result is a distorted spherical shape with a composed collection of imploded inner shapes, one of which acts as a shade for the light source.

Please Note: The Bocci 28t Table Lamp is not designed to be hard-wired when wall mounted, as the cable and switch are designed to be visible. Therefore, the light needs to be wall mounted within reach of a plug point.

PRODUCT SPECIFICATION

Light Source:	1.5W, 2500K, 130 Lumens
IP Code:	30
Dimming:	In-line dimmer included on cable.
Dimensions:	Shade: Ø16.5cm Base: Ø7.5cm Cable length: 230cm
