PRODUCT DESCRIPTION

Designer: Xavier Manosa

Marset Pleat Box 13 LED Pendant

Marset Pleat Box 13 LED Pendant is the narrowest size in the Pleat Box LED collection, designed by Xavier Mañosa and Mashallah for Marset. The design is based on the idea of applying a digitally designed fabric crease to a ceramic form, giving the shade its folded upper edge and soft, draped shape. Each shade is handcrafted in ceramic, so the surface, folds, and finish are central to the character of the pendant.

Pleat Box 13 is the narrowest pendant in the range. It suits smaller areas, including bedside spaces, small tables, corners, counters, and bars, where the larger Pleat Box sizes may feel too wide. The folded ceramic shade still has enough height to show the shape of the design, even in this smaller version. It can be used on its own, or repeated in a row above a longer surface. The shade is available in several exterior colours, with a glossy white enamel or 24-carat gold-plated interior depending on the variant.

This LED version is hardwired with a black fabric cord and a ceramic canopy in the same colour as the chosen shade. The integrated 2700K LED provides warm indirect light and is dimmable via mains phase dimming, with DALI-2 dimming and 3000K options available upon request. Most suited to bedrooms, kitchens, dining spaces, bars, restaurants, hotels, and interiors where a narrow ceramic pendant can be used alone or repeated in a row.

Please Note: The Marset Pleat Box 13 LED Pendant can also be supplied with DALI-2 dimming and 3000K options. Please contact us for more information and pricing.

Please Note: As of November 2026 all Marset Pleat Box Pendants are supplied with a black cable and a canopy in the same colour as the selected shade.

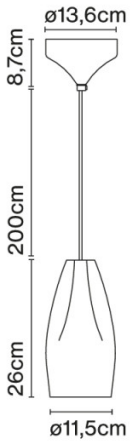

PRODUCT SPECIFICATION

Light Source: 5.72W, 2700K, 165 Lumens

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Shade: Ø11.5cm
Shade Height: 26cm
Cable Length: 200cm
