PRODUCT DESCRIPTION

Designer: Arne Jacobsen

Louis Poulsen Stainless Steel AJ Wall Light

The Louis Poulsen AJ Wall Light is now available with a stainless steel finish, the true original finish designed in 1957 by iconic Danish architect and designer Arne Jacobsen for the SAS Royal Hotel in Copenhagen. The re-release of the stainless steel finish celebrates the 60th anniversary of the SAS Royal Hotel's opening, when the stainless steel Louis Poulsen AJ Wall Lamp was installed in rows in the lobby.

The Louis Poulsen AJ Wall Light features a swivelling 9cm diameter shade, creating a focused beam of light with very little glare. This wall light can either be supplied with a cable which plugs into the wall or as a hard-wired version which can be wired directly into the wall by a qualified electrician.

PRODUCT SPECIFICATION

Light Source: 1 x Max 5W E14 LED (Excluded)
