PRODUCT DESCRIPTION

Designer: Front

Zero Grid LED Suspension

A striking industrial-inspired design, the Zero Grid Suspension Light, designed by Front Design, is defined by its perforated metal shade that creates a captivating interplay of light and shadow. Inspired by industrial sheet metal patterns, the pendant is available with square-hole perforations or expanded metal, allowing for a diffused yet directional glow.

The Grid pendant comes in clear painted metal, transparent gold varnish, yellow, and orange, with custom colours available upon request. The raw industrial finish ensures each piece is unique, with visible welding marks and scratches that add to its character. Suspended by a wire and 2-metre cable, the Grid suspension light is an ideal choice for contemporary loft spaces, restaurants, creative workspaces, and modern interiors, where its bold aesthetic makes a lasting impression.
