Only ONE Large White available

30% Discounted

WAS: £473.00 NOW: £331.10

Designed by Andreas Lund and Jacob Rudbeck, who took the bell shape and transformed it into a contemporary designer lighting. The Bell pendant, available in 4 colours and 4 sizes, has a robust shape with an industrial element and is perfect for home decor or a professional setting. The Normann Copenhagen Bell provides directional light and can sit perfectly above your dining table or conference room.

The designers have paid special attention to detail, with the shape of the pendant and especially at the connecting point of the cable and the shade. At the same time, the choice of material for the Bell was specifically picked to make the design clean and minimalist.

The Bell pendant can be as impressive when installed on its own, as well as in clusters of same or different sizes and colours. Perfect for any room and any setting, creating a stunning effect.

The LED E27 lamp is excluded, to purchase the lamp please click [here](#).
