Le Six Wall Lamp by NORR11

Designed by Kristian Sofus Hansen and Tommy Hyldahl, the Le Six wall lamp combines minimalist Scandinavian design and Art Nouveau, producing a wall light that has curved, sleek lines with a movable shade. Wanting to create a range that uses the same lampshade across different types of light, the designers developed the [NORR11 Le Six collection](#), which is full of instant classics that are modern and timeless.

The fully adjustable shade makes the Le Six wall light the perfect choice for lining the walls for ambience or as a spotlight whether you want it illuminating a feature painting or strategically lighting a shelf display. The finishes available are all very elegant and will look sophisticated in your room. Perfect for both professional and domestic interiors, this wall lamp is versatile and stunning.
