PRODUCT DESCRIPTION

Designer: Rune Krøjgaard & Knut Bendik Humlevik

Pipe Pendant Light by NORR11

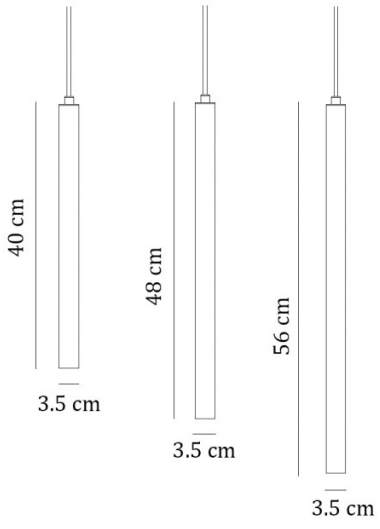

As the name suggests, the Pipe pendant series takes its design from a pipe, emphasising the influence of industry and mechanics in design. The simple and modernistic form of the Pipe pendant light makes it sleek and contemporary, seamlessly fitting into its surroundings.

The Pipe pendant comes in three sizes, which when put together makes a geometric shape that is familiar and recognisable as pipes. You can enjoy the pendant as a singular light, however, to make a subtle statement in the room. This pendant light also comes fitted with an energy-saving LED light source, making it good for the environment as well as being stylish. The bulb emits a warm glow, making this pendant perfect as a decorative or ambient light in many settings.

Please note, that the ceiling canopy is not included.
