P/Wood Chair by Kartell

A new release from Kartell, the P/Wood chair is part of the Kartell Smart Wood collection. The range is dedicated to bringing customers furniture made from FSC certified wood, a sustainable way of foresting and sourcing wood that ensures the environment is being looked after.

The P/Wood chair is made from a special patent from Kartell which means that a very thin layer of wood is used, that will not create any unnecessary waste. What results is a strong, sculptured chair with lovely curved lines and rounded edges. This chair is suitable for many environments and is a sustainable choice for your space.
