PRODUCT DESCRIPTION

Designer: Philippe Starck & Eugeni Quitllet

Kartell S/Wood Ottoman

The S/Wood Ottoman is part of the **Kartell Smart Wood Collection**, a range that is dedicated to creating furniture out of FSC-certified wood, ensuring that the environment is well looked after. The S/Wood footstool was designed by Philippe Starck and is made using the advanced 3D moulding technique which Kartell are known for. The stool is therefore made from a thin layer of wood, meaning minimal waste in the manufacturing process.

The Kartell S/Wood Ottoman is the perfect accompaniment to the **K/Wood Chair**, allowing you to put your feet up, sit back and relax. The design makes this ottoman suitable when paired with many types of furniture; however, it will easily fit in any existing design scheme in your lounge. The S/Wood Ottoman can also be used as a handy stool for extra seating, moulded with curved edges to fit your body and make you feel comfortable. Stylish and forward-thinking, the S/Wood ottoman is the perfect choice for a footrest or extra seat in your lounge.

Please Note: the S/Wood stool is also available with a leather seat upholstered option. Please contact us for further information and pricing.

PRODUCT SPECIFICATION
