PRODUCT DESCRIPTION

Designer: Philippe Starck & Eugeni Quitllet

S/Wood Ottoman by Kartell

The S/Wood ottoman is part of the [Kartell Smart Wood collection](#), a range that is dedicated to creating furniture out of FSC certified wood, ensuring that the environment is being well looked after. The S/Wood foot stool was designed by Philippe Starck and is made using the advanced 3D moulding technique which Kartell are known for. The stool is therefore made from a thin layer of wood meaning minimal waste in the manufacturing process.

The S/Wood stool is the perfect accompaniment to the [K/Wood Chair](#), allowing you to put your feet up, sit back and relax. The design makes this ottoman suitable when paired with many types of furniture, however, and will easily fit in any existing design scheme in your lounge. The S/Wood ottoman can also be used as a handy stool for extra seating, molded with curved edges to fit your body and make you feel comfortable. The S/Wood stool is also available with a leather seat upholstered option meaning you can get maximum luxury and pleasure. Stylish and forward-thinking the S/Wood ottoman is the perfect choice for a foot rest or extra seat in your lounge.
